PROFILE

4th-year Computer Science & Networks Engineering student at EMSI Casablanca, with hands-on experience in full-stack development, Big Data pipelines, mobile applications, and AI integration. Proven ability to deliver real-world projects across diverse domains. Curious and passionate about tackling real-world challenges, I am seeking a challenging internship to apply my skills and contribute to impactful projects.

EDUCATION

State Engineer's Degree in Computer Science & Networks

École Marocaine des Sciences de l'Ingénieur (EMSI), Casablanca

2024 – 2027 (In Progress)

Bachelor of Science & Technology – Mechanical Engineering

Faculté des Sciences et Techniques, Mohammedia

2023 – 2024

University Diploma in Science & Technology (DEUST) – Digital Development & Information Systems

Faculté des Sciences et Techniques, Mohammedia

2020 – 2023

Baccalaureate in Mathematical Sciences A

Lycée Pythagore, Mohammedia

2020

TECHNICAL SKILLS

Programming Languages

Python · Java · C · C++ · C# · JavaScript · TypeScript · PHP · HTML/CSS

Web & Frameworks

Django · Spring Boot · ASP.NET Core · Entity Framework Core · Node.js · Symfony · React.js · Angular · .NET

Mobile & Desktop

React Native (Expo) · Android Native · JavaFX (Scene Builder)

Big Data & Cloud

Hadoop · Spark · PySpark · HDFS · Hive · Iceberg · NiFi · Airflow · Docker · Azure Cloud

Databases

MySQL · SQL Server · Oracle · MongoDB · Neo4j · Cassandra · HBase · PL/SQL · T-SQL

Tools & DevOps

Git · Maven · Tableau · Firebase · Linux / Red Hat · REST API

Virtualization

VMware · Hyper-V · VirtualBox

Modeling & Design

UML · Merise

Languages

Arabic (Native) · French (Fluent) · English (Fluent)

ACADEMIC & PERSONAL PROJECTS

Lost & Found Railway System — Web — ASP.NET Core 8 · Razor Pages · EF Core · SQL Server

Full-stack web application for managing lost & found items on the Moroccan railway network (ONCF).

- Lost/found item reporting and claim management with admin dashboard
- Role-based access control, email notifications, and multilingual support
- Dark mode, responsive design (Bootstrap), security best practices

Skills: C#, ASP.NET Core, Razor Pages, Entity Framework Core, SQL Server, JavaScript, Git

Botola Football Analytics — Web — Spring Boot · Neo4j · React · Chart.js

Web-based football analytics platform for the Moroccan Botola league, leveraging graph database queries.

- League overview, team & player analysis, match details, and head-to-head stats
- Player comparison engine and ranking system with interactive data visualizations

- Advanced search powered by Neo4j Cypher graph queries

Skills: Java, Spring Boot, Spring Data Neo4j, Cypher, REST API, React, Recharts, full-stack development

OneShot – Daily Photo Challenge App — *Mobile — React Native · Expo · TypeScript · Firebase*

Cross-platform mobile app built around a daily photography challenge concept.

- Daily photo challenge feed with likes, comments, and follower system
- Real-time notifications, Firebase Authentication, Firestore & Storage
- Premium UI with dark theme and glassmorphism design

Skills: React Native, TypeScript, Expo, Firebase (Auth, Firestore, Storage), UI/UX design

Fitness Tracker Desktop App — *Desktop — Java · JavaFX · Scene Builder*

Desktop application for tracking workouts, progress, and fitness goals with graphical reporting.

- Workout logging, goal setting, and progress monitoring
- Integrated locally stored exercise tutorial videos demonstrating correct gym technique for each movement
- Graphical charts and activity statistics via interactive JavaFX dashboards

Skills: Java, JavaFX, Scene Builder, desktop application development

Hotel Reservation System — *Web — Django · React.js · MySQL · REST API*

Complete hotel booking web application with room browsing, secure online reservation, and real-time availability updates.

- Dynamic room availability management and booking engine
- Secure REST API backend with Django and interactive React frontend

Skills: Django, Python, JavaScript, React.js, REST API, MySQL, Bootstrap, Stripe

E-Commerce Platform with Virtual Try-On (AI in progress) — *Web — Django · React.js · MySQL*

E-commerce site with full navigation, user registration, order and user management. AI-powered virtual try-on feature under active development.

- Product browsing, shopping cart, and order management system
- Virtual try-on module based on AI/computer vision (in progress)

Skills: Django, Python, JavaScript, React.js, REST API, MySQL, Bootstrap, Stripe

Doctor Availability Platform — *Web — Symfony · PHP · MySQL*

Web platform displaying real-time doctor availability to streamline appointment booking.

- Real-time availability display and appointment request system

Skills: Symfony, PHP, MySQL, Bootstrap

PROFESSIONAL EXPERIENCE

Big Data Intern at Eurafric Information – Green City, Bouskoura, Casablanca | *Aug – Sep 2025*

Multi-Layer Big Data Pipeline for LakeHouse Management (Medallion Architecture)

- Ingested financial data (bank accounts) and automated flows with Apache NiFi into HDFS
- Transformed and enriched data using PySpark (Bronze → Silver → Gold layers, Parquet format)
- Orchestrated pipeline with Airflow; managed data catalog via Hive & Iceberg
- Delivered analytical dashboards in Tableau to support BI and data-driven decisions

Stack: Hadoop · HDFS · Spark · PySpark · NiFi · Airflow · Hive · Iceberg · Docker · Tableau

CERTIFICATIONS
