PROFILE

4th-year Computer Science & Networks Engineering student at EMSI Casablanca, with solid hands-on experience in full-stack development, Big Data pipelines, mobile applications, and AI integration. Proven ability to deliver real-world projects across diverse domains. Curious and solution-driven, I am seeking a challenging internship to apply my skills and contribute to high-impact projects.

EDUCATION

State Engineer's Degree in Computer Science & Networks – Digital Development & Information Systems

École Marocaine des Sciences de l'Ingénieur (EMSI), Casablanca

2024 – 2027 (In Progress)

Bachelor of Science & Technology – Mechanical Engineering

Faculté des Sciences et Techniques, Mohammedia

2023 – 2024

University Diploma in Science & Technology (DEUST) – Mathematics, Computer Science & Physics

Faculté des Sciences et Techniques, Mohammedia

2020 – 2023

Baccalaureate in Mathematical Sciences A

Lycée Pythagore, Mohammedia

2020

TECHNICAL SKILLS

Programming languages	Python · Java · C · C++ · C# · JavaScript · TypeScript · PHP · HTML/CSS
Web & Frameworks	Django · Spring Boot · ASP.NET Core · Entity Framework Core · Node.js · Symfony · React.js · Angular · .NET
Mobile & Desktop	React Native (Expo) · Android Native · JavaFX (Scene Builder)
Big Data & Cloud	Hadoop · Spark · PySpark · HDFS · Hive · Iceberg · NiFi · Airflow · Docker · Azure Cloud
Databases	MySQL · SQL Server · Oracle · MongoDB · Neo4j · Cassandra · HBase · PL/SQL
Tools & DevOps	Git · Maven · Tableau · Firebase · Linux / Red Hat · REST API
Virtualization	VMware · Hyper-V · VirtualBox
Modeling	UML · Merise
Languages	Arabic (Native) · French (Fluent) · English (Fluent)

ACADEMIC & PERSONAL PROJECTS

Lost & Found — Railway System

Full-stack web app for managing lost & found items across a railway network.

- Item reporting & claim management with admin dashboard
- Role-based access control, email notifications and multilingual support
- Dark mode, responsive design (Bootstrap), security best practices

Skills: C#, ASP.NET Core, Razor Pages, Entity Framework Core, SQL Server, JavaScript, Git

Botola Football Analytics

Web analytics platform for the Moroccan Botola league powered by a graph database.

- League overview, team & player analysis, match details and head-to-head stats
- Player comparison engine and ranking system with interactive data visualizations

Skills: Java, Spring Boot, Spring Data Neo4j, Cypher, REST API, React, Recharts

OneShot — Daily Photo Challenge App

Cross-platform mobile app built around a daily photography challenge concept.

- Photo challenge feed with likes, comments and follower system
- Premium UI with dark theme and glassmorphism design

Skills: React Native, TypeScript, Expo, Firebase (Auth, Firestore, Storage), UI/UX design

Fitness Tracker — Desktop App

Desktop app for tracking workouts, progress and fitness goals with graphical reporting.

- Workout logging, goal setting, progress monitoring and integrated tutorial videos

Skills: Java, JavaFX, Scene Builder

Hotel Reservation System

Complete hotel booking web app with dynamic availability and Stripe payment integration.

- Dynamic room availability management and booking engine with online payment

Skills: Django, Python, React.js, MySQL, Stripe, REST API

E-Commerce + AI Virtual Try-On

Full e-commerce platform with an AI/computer vision virtual try-on module in development.

- Product browsing, shopping cart, user registration and order management
- Virtual try-on module based on AI / computer vision (in progress)

Skills: Django, Python, React.js, MySQL, Stripe, REST API

QuizApp — Android Mobile App

Android quiz app focused on general knowledge with authentication and user management.

- Full authentication: sign up, login and session management via Firebase Auth
- General knowledge questions with instant feedback and score tracking via Firestore

Skills: Java, Android Native, Firebase (Auth, Firestore)

Invoice Management — Web App

Full-featured invoice management platform with dual-role access (Admin / Accountant).

- Invoice, client & article management with PDF generation, payment tracking and analytics dashboard
- Firebase authentication with role-based access control and protected routes

Skills: React JS, Material UI, Firebase, jsPDF

PROFESSIONAL EXPERIENCE

Big Data Intern — Eurafric Information, Green City, Bouskoura, Casablanca | Aug – Sep 2025

Multi-Layer Big Data Pipeline for LakeHouse Management (Medallion Architecture)

- Ingested financial data (bank accounts) and automated flows with Apache NiFi into HDFS
- Transformed and enriched data using PySpark (Bronze → Silver → Gold layers, Parquet format)
- Orchestrated pipeline with Airflow; managed data catalog via Hive & Iceberg
- Delivered analytical dashboards in Tableau to support BI and data-driven decisions

Stack: Hadoop · HDFS · Spark · PySpark · NiFi · Airflow · Hive · Iceberg · Docker · Tableau

CERTIFICATIONS

- React Basics — Meta
- React Native — Meta
- Python for Data Science and AI Development — IBM
- Introduction to DevOps — IBM
- Introduction to Big Data — UC San Diego
- Using Python to Access Web Data — University of Michigan
- Using Databases with Python — University of Michigan
- Python Data Structures — University of Michigan
- Interactivity with JavaScript — University of Michigan
- Java Programming and Software Engineering Fundamentals — Duke University
- Software Design and Project Management — University of Hong Kong
- Introduction to C++ — Université de Lausanne
